### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 10 November 2010.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-9 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1 and 9 is/are rejected.
- 7) ☒ Claim(s) 2-8 is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 20 December 2005 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Claim 1 recites "a running unit... fitted in an inner frame" and claim 6 recites "the running unit has wheels". The wheels of claim 6 are shown as **outside and connected to** the inner frame, not **in** the inner frame as recited in claim 6. The feature(s) must be shown or the canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. **Claims 1 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by US 2,668,975 (Narajowski hereinafter).**

4. In re claim 1, Narajowski discloses a sticking unit (18), a wiping unit (38) mounted on the sticking unit and fitted in a rectangular outer frame (col. 4, ll. 55-67), and a running unit (37) mounted on the sticking unit and fitted in an inner frame (26) turnable in the outer frame, said inner frame (26) and outer frame being freely rotatable with respect to each other.

5. In re claim 9, Narajowski discloses a wiping unit freely removable from the sticking unit.

***Response to Arguments***

6. Applicant's arguments regarding the objection to the drawings have been fully considered but they are not persuasive. The claims limit the running unit, including the wheels, to inside an inner frame. The wheels appear to be outside of, but connected to, the inner frame.

7. Applicant's amendment to claim 3 is persuasive. Accordingly, the 112 rejection has been withdrawn.

Art Unit: 3723

8. Applicant's arguments regarding the 102 rejection are not persuasive.

Applicant's argument is unclear. Page 5, line 2 of the response recites "not intended to like the wiping unit as the latter rotate". Not intended to what? As best understood, Applicant argues that wheels 55 and 56 are not in an inner frame turnable in an outer frame. The Examiner agrees, however, the Examiner mapped a wheel assembly 25 as the running unit, not wheels 55 and 56. Applicant then argues that wheel assemblies 25 are not a running unit because they are not intended to cause rotation. The Examiner disagrees. Referring to an individual wheel assembly 25, said assembly is mounted on the sticking unit, fitted in a rectangular inner frame (a rectangle can be drawn around each wheel assembly), said inner frame being freely rotatable with respect to the outer frame, thus meeting all the claimed limitations. No other structural limitations are required. The claims do not require that the running unit cause the inner frame to rotate.

***Allowable Subject Matter***

9. **Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.**

***Conclusion***

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3723

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
